

Santa Barbara Soccer Club

Tournament Competition Guidelines

The goal of our tournament is to have fair and level competition. We rely upon the information you provide when creating flights. We request that you provide your gaming league, level of play and record when completing the team history portion of the application. You may also find the following guide helpful in finding the right level of competition (It mirrors the Cal South guidelines when advising teams on the appropriate level for State Cup competition). If your league is not listed, please consider your level of play as it relates to your area or state. Teams may always play up. Just let us know.

Finally, the tournament committee will try to honor your request, but may have to make adjustments for conditions beyond our control.
